FleetValue Parts

ISUZU

Get the Right Part for the Right Price at the Right Time!

Saving money is a prime concern these days, but truck operators cannot afford to sacrifice quality. And service down time is just as important, if not more important than price. Now you don't have to choose. FleetValue™ is a parts product line designed to provide you greater value than what is currently available in the parts aftermarket. This parts line focuses on maintenance parts for your Isuzu-built commercial truck. FleetValue parts are high quality, provide excellent value at a competitive price and are available only at your Isuzu truck dealer.

You don't know what you're getting from the traditional aftermarket

Sometimes aftermarket parts are good, sometimes they're not. If they're not, you could be compromising the protection of your vehicle and possibly driver safety.

All FleetValue parts meet the performance standards established for your Isuzu-built truck – something you can't be sure of when you buy other aftermarket parts. As an example, FleetValue brake pads were put through rigorous on-vehicle testing and exceeded the Federal Motor Vehicle Safety Standards (FMVSS).

FleetValue™ parts are competitively priced and conveniently available at Isuzu truck dealers

Your Isuzu truck dealer can offer you FleetValue parts as well as the full line of Genuine Isuzu Parts to service your truck. Only Isuzu dealers can provide this kind of convenience and value. FleetValue parts provide high quality and great value at a competitive price.

FleetValue Parts Limited Warranty*

What is Covered:

FleetValue parts installed by an Isuzu dealer or authorized repair facility are warranted for twelve (12) months from the date of installation. FleetValue parts sold "over the counter" (i.e., not installed by a dealer or repair facility) are warranted for twelve (12) months from the date of that sale. See your local Isuzu dealer for warranty details.

*See your authorized Isuzu truck dealers selling FleetValue™ parts or go to www.isuzucv.com/service/warranty.html for complete details. FleetValue parts are utilized in Isuzu's nationwide Priority Service Maintenance Program.

**"RIGHT PARTS"
"RIGHT PRICE" "RIGHT TIME"**
